Supreme Combo Link has 4 exciting levels – Grand and Major are progressive, while Minor and Mini are Bonus Prize and Non-progressive.

The scarabs lead the way to wealth, starting with the Green Scarab, which grants players 8 Free Spins. In them, frames may appear around the figures, and they remain until the end of the Free Spins. As a finishing touch, one Super Spin is played, and winnings are paid only for the figures in the frames. If the frames fill out the whole screen, there is a special multiplier.

The Blue Scarab offers a Keep&Spin bonus with up to three resets when Scarabs with credit are spinning on the screen. A full screen of Blue Scarabs grants a win multiplier.

And now for the cherry on top – the Red Scarab, which starts a Jackpot Pick-up bonus with 12 elements, where opening three of the same elements, wins the corresponding jackpot level.

Another four types of bonuses await as a mix of the previous three, and if the jackpot is opened with another bonus, up to three extra coins with winnings from previous bonuses can be won.

Premium Link is a jackpot system where EGT games from General, Power, Collection, Premier and older series like Vega Vision+ and Vega Vision can be linked together in order to participate in common mystery and symbol-driven progressive jackpots.

The Premium Link is based on Premium Progressive Controller (PPC) and Media Control Center (MCC) for visualization, and supports a mystery jackpot with up to 3 levels (Mini, Middle and Super), all of which are common for all games and denominations and fully customizable, including a setting for minimum bet requirement. The mystery jackpot values are accumulated on the grounds of stakes made on all machines participating in the jackpots and can be won randomly by each of them.

Premium Link supports symbol-driven jackpots, each with a maximum of 4 denominations and with its own independent settings. The accumulation is done on the grounds of stakes made during the games.

Gaming machines of other manufacturers also can be linked in order to participate in common mystery jackpots. For this purpose, each gaming machine has a special controller – Jackpot Interface Module (JIM). The collected jackpots are transferred to the gaming machines as Legacy bonuses via SAS Protocol.
